PROFESSIONAL SUMMARY

Aerospace Engineering graduate with an active Secret security clearance and hands-on mechanical engineering experience supporting the overhaul of U.S. Navy nuclear submarines. Proven leader with project management experience in satellite development, complemented by a strong academic foundation in physics and engineering. Seeking to apply technical skills in systems analysis, project management, and a diverse software suite to a challenging engineering role.

EDUCATION

North Carolina State University – Raleigh, NC May 2025

- Bachelor of Science in Aerospace Engineering GPA: 3.1
- Minor in Physics

Brunswick Community College – Bolivia, NC May 2021

- Associate of Science
- Associate of Engineering

EXPERIENCE

Mechanical Engineer – Portsmouth, VA

July 2025 – Current

- Provide critical engineering support for the overhaul and maintenance of United States Navy nuclear submarines.
- Apply comprehensive, hands-on knowledge of Virginia-class submarine mechanical systems to troubleshoot and resolve operational issues.

Project Manager - Raleigh, NC

August 2024 – May 2025

- Led a team of seven aerospace engineers in the complete development lifecycle of a nano satellite.
- Authored and submitted a formal project proposal to the Department of Defense (DoD) and NASA.

Additional Experience – Various Locations

June 2018 – July 2025

- Demonstrated a strong work ethic, flexibility, and problem-solving skills in a variety of roles, including Waiter, Landscaper, Leasing Agent, Porter, and Public Educator.
-

SKILLS & QUALIFICATIONS

- **Security Clearance:** Secret
- **Software:** Simulink, Ansys, Java, C, Assembly, MATLAB, XFOIL, OpenVSP, Inventor, SolidWorks
- **Technical:** Systems Engineering, Mechanical Systems Analysis, Physics, Mathematics, Technical Writing
- **Professional:** Project Management, Leadership, Communication, Teamwork, Adaptability
